The Retiring British Fleet.

CONSTANTINOPLE, Sept. 30.—The British fleet left Besika bay Saturday for Smyrna, and after approaching to a short time at the entrance of the Dardanelles saluted the Turkish flag, proceeded to Smyrna.

Signing the Treaty—Fiat Money in Turkey.

CONSTANTINOPLE, Oct. 1.—Prince Dondonkoff Korsakoff, the Russian governor of Bulgaria, has resigned. He occupies the nineteenth article of the treaty, interesting the administration of Eastern Roumelia to an international commission appointed for the organization of the province. The alarmingly great depression in money continues and causes the most serious embarrassment. At the beginning of last July only about one third of its nominal value was lost; these have fallen nearly seven per cent, and probably it will fall much lower. Coupons are accepted in payment of tithes, and consequently flowing into Constantinople in large amounts. The sultan has given strict orders that all moneys at once be taken for that purpose. He has nominated a commission, with Mahmoud Nedim, of late grand vizier, at its head, to consider the financial situation and practical remedies.

Defenses of India.

LONDON, Sept. 30.—A correspondent at Calcutta explains as follows: Unless Sheere Ali gives us cause for offense the present occasion will not be seized to occupy the passes piercing the mountains bounding the whole frontier, from the Bolan to the Khaiber, and further strategic points will be selected to dominate the Shutlegee valley and the Hindoo Koosh mountains.

The Afghan War.

LONDON, Oct. 1.—Telegraphic dispatches from Simla this noon say hopes that the Afghan difficulty will be arranged peaceably. The government is pressing military preparations. Troops are being collected from all sides and sent to strategic points on the northwest frontier of India.

A Protest from Hungary.

PESTH, Sept. 30.—Hungarian radicals held a mass meeting here to day to protest against the occupation of Bosnia. Resolutions were unanimously adopted declaring the occupation of Bosnia by Austria a flagrant violation and demanding the withdrawal of the army from Bosnia.

The Last Stronghold Taken.

ROME, Oct. 1.—General Jovanovich telegraphs to Belgrade, that five days of violent bombardment of Klobuk, the last refuge of the insurgents in Herzegovina, surrendered, having made a complete destruction of the fortified position immediately commenced. The Austrian troops are marching through with the Job.

BERLIN, Oct. 1.—Gen. Philippovich, replying to Gen. Von Roon, the war department, states that the reserve force of the corps of occupation can be recalled from Bosnia by the end of October. The reserve force of the corps of occupation will also be furnished and a number of troops will be furloughed and a number discharged.

Whitelaw's Resignation.

LONDON, Oct. 1.—The Pall Mall Gazette states that the resignation of Whitelaw, postmaster general, has been accepted.

A Minister Transferred.

The appointment of Count Lodislas Hoyos, present secretary of the embassy, extraordinary and plenipotentiary at Washington, to be the successor to Koumeula, is officially announced.

Russia to Fight England.

A Berlin dispatch states that Schir Ali Khan has received a secret envoy of the amoeer of Afghanistan, who has come to claim the sultan's intervention in the pending difficulty in order that England shall not declare war against Afghanistan. He has further convinced the Sultan that an alliance with Russia is advisable for the Mussulman race.

Active War Preparations.

LONDON, Oct. 1.—Five batteries of artillery will leave Portsmouth on the 15th instant for India. The second battalion of the 15th regiment at Corfu, will embark at Queenstown for India. A Saturday night dispatch from Simla says that preparations are advancing with the utmost speed. Several regiments have already been mobilized, but the commissariat department requires a reasonable time for its completion. The army is enthusiastic, and the spirit of the native troops is admirable.

Official Corruption in Russia.

NEW YORK, Oct. 1.—The *Tribune's* St. Petersburg special says: The imperial Russian commission, appointed to inquire into army frauds, have reported that corruption and venality was widespread. Four hundred officers, including forty colonels, are accused by the commission, with irregularities.

National Courtesy, not Interference.

PARIS, Oct. 1.—Private advices state that the British charge d' affairs at St. Petersburg presented to the imperial chancellory a note inquiring in what way Russia proposed to reconcile General Stolietoff's mission to Cabul with its previous engagements, by which Russia agreed to renounce all political influence in Afghanistan. The reply was to the effect that Russia was always disposed to respect existing engagements, and that the mission of Gen. Stolietoff, although decided upon at a time and under circumstances which now no longer existed, was merely intended as an act of courtesy to the ameer of Afghanistan.

Austria Needs Money.

LONDON, Oct. 1.—A Vienna dispatch says: The government's embarrassment is extreme. Hungarian ministers declare that they cannot provide the money required as Hungary's contingent of the expenses of Bosnian occupation, until a meeting of the delegations. Count Andrassy refuses to reduce expenses by withdrawing a great part of the army from Bosnia, but the military party oppose this measure. The situation is greatly strained, and its solution, which is expected during the present week, may perhaps involve the resignation of the Hungarian, Austrian and Imperial ministers.

The Socialist Bill.

BERLIN, Oct. 1—The *Nord Deutsche Zeitung*, the government organ, says that among the amendments proposed by liberals to the anti-socialist bill which the government cannot sanction, the one the least acceptable is that which restricts the operation of the law to two and a half years. In this the government organ probably expresses the intentions entertained by Bismarck, who has been threatening another dissolution of the reichstag in the event of the unsatisfactory result of the socialist debate.

PACIFIC COAST NEWS.

CALIFORNIA.

Mexican Bandits.

SAN FRANCISCO, Sept. 30.—A letter from Tucson, Arizona, dated 21st inst., to John Sevenoaks, of San Jose, brings news that two of the murderers of ex-Sheriff J. H. Harris and ex-County Clerk Finlay, of that city, have been shot. As previously stated, the assassins were Mexicans who had been engaged in placer mining near the scene of the tragedy. After the murder they started for the Mexican border, and were traced to Santa Cruz, just over the line in Sonora. Officers received assistance of the authorities at that place, and after a sharp fight the two were captured. After being taken before the governor of Sonora they confessed their crime and gave particulars and whereabouts of others. Gov. Don Marcesal condemned them to be shot. When taken these men had the pistols of Messrs. Adams and Finlay on their persons. It is probable the remaining criminals have been captured before this and will share the same fate.

Preliminary Work.

SACRAMENTO, Oct. 1.—The convention met this forenoon and proceeded to elect a secretary. Bompkeld with 68 votes for four ballots, the workingmen voting solid for their man Clarke, of Santa Clara, and Johnson of Alameda, who was third in the race. On the fifth ballot the workingmen changed to Johnson, who, with some other changes, received 77 votes and was declared elected.

SACRAMENTO, Oct. 1.—The constitutional convention this afternoon adopted a resolution that the chair appoint a committee of seven to designate the officers of the convention other than the president and secretary. The chair appointed S. M. Wilson, Murphy, Van Dyke, Larkin, Howard, Brown, Reddy, and Reynolds. A resolution appointing a committee of fifteen to draft rules for the organization, was adopted. Also a resolution thanking the governor and secretary of state for their services, though some dissatisfied workingmen voted loudly No.' Adjourned till to-morrow at 1:30 P. M.

A Hoodlum Killed.

SAN FRANCISCO, Oct. 1.—About 3 o'clock this afternoon a hoodlum named Daniel Merkle, with two companions, assaulted a Chinaman near the corner of Thirteenth and Folsom streets. A lady passing interfered in behalf of the Chinaman, and a wordy dispute followed. This was noticed by a daughter of Colonel A. W. Von Schmidt residing near by, who called the attention of her brothers Edward and Alfred to the difficulty. The two young men went out to quell the disturbance and Alfred came to blows with Merkle. The latter was worsted in the encounter and withdrawing a few steps drew a pistol. Merkle and Alfred exchanged shots, when Edward seeing Merkle about to fire another shot at his brother also drew a pistol and advanced on Merkle. The latter turned his weapon on Edward when both fired simultaneously and Merkle fell shot through the heart. One of Merkle's companions just then fired once at Edward Von Schmidt who returned it, neither shot taking effect. The Von Schmidts were arrested on a charge of murder. Merkle's companions ran off.

An Opium Bonanza.

The custom house inspectors lighted on a small opium bonanza yesterday. In a wagon used to transport the mails from the *City of Peking* there had been smuggled a package containing 800 tins of opium, the whole representing about 187 pounds. Joseph Hess, the man in charge of the package, was arrested for smuggling and required to give bonds to answer the charge.

NEVADA.

VIRGINIA, Sept. 30.—Capt. John Kelly made an attempt to visit the Ophir mine today, having a legal permit made out under the law authorizing holders of 1 per cent of stock to inspect mines on the 30th of each month. Patton, acting under instructions refused to let him in. Kelly swore out a warrant and Patton has been arrested. There is much excitement over the affair. Kelly was endorsed to-day. Sierra Nevada will be inspected by experts.

New Developments in the Comstock.

VIRGINIA, Sept. 30.—Experts who visited the Sierra Nevada to-day all tell the same story. The ore in the face of the vein at the foot of the incline is richer than at the end of the 12-foot drift on the 2,100-foot level. It is richer than any ever found on the Comstock. In Ophir a cross cut from the 2,100-foot level has encountered good ore at a point 15, or at least 12 feet, west of where it was expected.

The Man who Wanted to See.

Patton, who was arrested to-day for refusing John Kelly admission to the Ophir mine, will be tried at 10 o'clock to morrow. Much interest is felt. Kelly has the required number of shares, but Patton holds that his order from the court was dated the 19th instead of the 30th, as Kelly claims. The whole thing was a piece of spite work in retaliation for his helping to defeat the bonanza ticket in the primaries.

House.

House met at 10 A. M.; roll called and on motion of Mr. Thompson reading of minutes was dispensed with.

S. J. R. 8, pending at time of adjournment; referred to committee on printing.

BILLS READ THIRD TIME.

H. B. 3—To amend civil code concerning verdict of jurors, five grand jurors to find indictment, except in criminal cases, three-fourths of jury to find verdict; lost; ayes 29, nays 26.

H. B. 4—Relating to conveyance of real property and to prevent conveyances to citizens of other states for purpose of giving jurisdiction to federal courts.

On motion of Norris, bill with amendment, proposed by him, was referred to judiciary.

H. B. 12—To punish persons for provoking breaches of the peace.

Mr. Stearns argued that the present law is sufficient; matters of trivial character have come before courts are now immaterial, and this will add almost unlimited litigation; men will be called into court for ordinary conversation. The truth spoken in English would be made cause of legal proceedings.

Kearney introduced the bill by request, and as the judiciary committee has approved the bill, he moved indefinite postponement; carried.

Campbell, of Douglas, said the intent of this act is to conform with U. S. law; passed—yeas 56, nays 6.

H. B. 46—To prevent branding of stock outside of an enclosure, was widely debated, pro and con, some Eastern Oregon members showing that cattle are frequently branded on range by persons not their owners, and thus the owner is defrauded.

Gates thought the law could not be enforced, and will do no good, save to increase attorney's fees.

Rinehart, of Union, approved the bill, and others presented objections. The bill failed to pass.

H. B. 48—Legal interest to be 7 per cent.; on contract, 10 per cent.

Thompson said such a bill will drive capital out of the state; therefore he opposed it.

Grant, of Polk, favored it—thought nothing could be done to hurry others; thought it would build up the state.

Cole, of Columbia, opposed the bill and cited California, where there was no usury law and money was at low interest.

Shelburn thought we can do no good to legislate on this matter; it's would be left to regulate itself.

Carter moved to lay on the table until H. B. 87, on the same subject, was reported, which motion prevailed.

H. B. 49—To regulate common carriers and require the transportation of freight in the order received; recommitted. Adjourned.

AFTERNOON SESSION.

House met at 2 P. M.

H. B. 50—Regulating the liquor traffic by a $150 license fee; per annum, petitioner to secure the signatures of a majority of the legal voters according to the poll books.

Gates objected, stating that the bill repeals acts regulating the sale of liquor in cities and wanted to press a vote.

Cole said that the country districts cannot pay that sum. He favored the suppression of the liquor traffic, but was satisfied that legislation would not do it. It would not prevent intemperance. He had lived where no license was issued and merchants give liquor to their customers.

Thompson opposed licensing persons without good moral character.

Dorris wanted a strong bill, and moved to refer. He thought the term "grocery" not explicit.

Townsend said, "Kill the bill." If that was the intention he thought the majority should vote. The license fee is small enough.

Dorris withdrew his objection.

Lee was for the bill. He thought its terms sufficient. The majority does not now control. The law should be in operation.

Grant thought drinkers could, if necessary, pay in advance for drinks, and assist dealers to get a license. This bill will work a revolution in the manners of the people.

Ramsby advocated the bill. Temperance people are now on the defensive all the time. He thought liquor sellers should be on the defensive; thought an important qualification for a liquor seller was to have a good moral character.

Reed was in favor of the bill. The district where no license was issued was fortunate.

Purdin favored the bill.

Tyson showed how the law works and the will of the majority does not rule. The bill passed: yeas, 36; nays, 29; absent 4. The speaker explained and favored the bill, all except the general repealing clause.

Yeas—Broback, Cole Currie, Caldwell, Evarts, Forbes, Fretland, Greer, Gates, Hughes, Newman, Riley, Schroder, Schoolding, Thompson, Wright, Webdell, Will, Whitsinerock, Mr. Speaker.

Absent—Galloway, Hendricks, Hamilton, Stearns, H. B. 54—Defining the line between Grant and Baker counties; passed after discussion.

H. B. 64—Requiring hides of slaughtered animals to be exposed ten days. A long discussion ensued.

Scott said it showed hardship toward town butchers.

Rinehart thought that hides would be damaged.

Smith said that slaughter houses will be nuisances.

Burden—That thieves won d not expose hides.

Townsend favored the bill for the upper country.

Thompson read a letter favoring the bill, from stock growers.

Kahler knew it was important.

Galloway favored it for certain counties.

Hughes thought it would not work.

Brobeck thought it would.

Newman said it would punish honest men and not expose thieves.

Scott moved to apply it to Jackson and Lake counties.

Evarts showed that it would be unconstitutional.

Grant said it would ruin many hides.

Ramsby thought a good law might be framed.

Smith moved the previous question, and under its operation the bill failed.

H. B. 61—To legalize roads in Curry county; passed.

H. B. 105—Repealing an act creating the office of assistant secretary of state with $100 salary.

Galloway explained his motive and favored the same bill last session; thought it unconstitutional to have an assistant secretary; this bill cut off $400 and left $1,600 for clerical aid in the secretary's office.

Thompson moved its reference to the special committee.

Reed favored its reference to the judiciary committee.

Scott said that the duties of the state officers constantly increased. With all the aid they have the reports are not ready. They have extra work constantly put upon them. Hoped no partisan feeling would be allowed.

Gates favored all the clerical force necessary; the state will suffer else.

Grant said this was canvassed on the stump and all denounced it. He came to repeal it. The three salaries were too much for one thing.

Smith said that the last legislature passed this bill and reconsidered it when they understood the needs of the secretary for clerical aid.

Townsend thought the secretary should have a good clerk, well paid, but no assistant secretary.

Reed said that the office was not prohibited in the constitution, and it made no difference what a clerk is called.

Thompson thought $1,600 enough, and should vote for the bill.

Scott being in the chair, Speaker Thompson said that he was not a partisan. The duties of the secretary could not be delegated. No assistant could act as governor in any contingency. He should have a good clerk well paid. This leaves him $1,—600.

Starkweather moved its reference to the judiciary committee to report a substitute to provide a clerk for the secretary of state.

Galloway believed it would defeat the bill. The time was short and the judiciary committee was loaded with business; motion lost.

Motion to refer to mining committee was lost. Adjourned.

INTEREST ON MONEY

A bill has been introduced in the legislature for an act to provide that the rate of interest in this state shall be seven per cent and no more and that this shall be the rate on money due upon settlement of mutual accounts from the day the balance is ascertained and on money to become due when there is no contract to pay interest and no rate of interest is specified but on special contracts eight per cent may be charged by express agreement of the parties All contracts for payment of a higher rate directly or indirectly are to be deemed usurious and work a forfeiture of the entire debt

In the bill before us the space usually occupied by the name of the member who introduces a bill is left blank, perhaps because the member does not wish the country to know who it is that loiters and lags so far behind the progress of enlightened knowledge on a subject of great public importance The fact is no thinker or writer worthy of the name believes that a law to limit the rate of interest can ever be effective or that its result can be other than to obstruct business transactions and actually increase the rate of interest rather than diminish it If this law should pass, honest money would be kept out of the state and dishonest money would ply its trade through secret or surreptitious ways

As the law now stands it is much the same as no usury law because the abundance of money has reduced the interest below the rate at which contracts may be made But seven and eight per cent will not pay here for after taxes are deducted there will be little left It would be better to put money at once into government bonds And the foolish legislation that is driving so much money into bonds is one of the things that operates to produce the depression of industry of which the times furnish so loud complaint

By this time all men all ought to know that the attempt to reduce the price of money by law is as futile as an effort to reduce other prices by the same method. Instead of tending toward the result desired such legislation always increases prices It interposes between individuals who are the only ones concerned and are therefore alone competent to decide what is for their mutual interest, and when a man is obliged to have money and has not good security to offer, he not only has to pay the price of the loan, but for the risk taken by the lender in violating the law The only method on which business of any kind can be legitimately done is to leave transactions of all sorts entirely free from legislative restrictions Enact this seven per cent law and the legitimate business transacted through the banks and directly between individuals interested will come at once to an end and we shall see money lent only through third parties, who will make the borrower pay for the trouble and for violation of the law Besides, it will force money into places of concealment where taxation cannot reach it, and will, moreover, encourage the growth of a plentiful crop of frauds and perjuries

ASYLUM FOR THE INSANE

THE OREGONIAN has never counseled any measure regarding the care of the insane which would lead to neglect of this unfortunate class but it has for a long time advocated measures which would reduce expense It finds in Senator Watts bill a series of propositions which embody ideas well calculated to secure that end Hence it has commended that bill, and expressed a hope that it would pass The fact is, persons are sent to the asylum with too great facility, many become a public charge who should not be so and the laws as they now stand encourage the proceeding If Senator Watts bill should pass it would keep out of the asylum large numbers who are now improperly sent there But the contractor wants them, the more the better, and this is the reason why he so bitterly opposes the bill, and why subsidized newspapers do the same That the bill is thus opposed is conclusive proof that it is a measure calculated to promote the public interests. We are not making complaint of the manner in which the contractor executes his trust But it is apparent that the state should prescribe stricter regulations under which persons may be committed to the asylum as a public charge The *Standard* is made the champion of the effort to continue the present system with its vast and constantly growing expense an expense which for many years has increased at a more rapid rate than the property of the state That paper has two arguments One is that any criticism of existing things is an attempt to 'get the asylum away from Portland as if it made any special difference to the people at large where the asylum is kept, and the other is an appeal to sympathy for the unfortunates of the asylum, which is however, really an appeal to the public for the interests of the contractor It does seem to us that the contractor should not have his own way altogether in this matter Here is a source of expense which absorbs nearly half the revenue of the state It yields great profit to the contractor, and creates an interest large enough to maintain a lobby at the capital and exert great influence over general legislation Dr Hawthorne is an estimable man, no doubt, and wins much favor through a private such We can therefore let no opportunity pass of urging Watts bill upon the attention of the legislature.

LET US HAVE NO FOOLERY

If the legislature proposes to give the city of Portland authority to deal with the water question let it do so fully and fairly All such bills as those introduced by Mr Stearns of this city to regulate the price of water and gas or to give the common council the right to do so merely trifle with the subject, be cause they will prove to be not worth the paper they are written upon It is tolerable easy for an unpractised law student to load himself down with court decisions which he is not able to digest or construe and to make grievous mistakes in an effort to give them applications foreign to their use The power to fix rates as claimed implies a power that could be exercised to an unlimited extent it could fix a rate so low that no business could possibly be carried on since there could be no judge of what was 'reasonable' beyond the legislature or the common council Such a scheme could not stand it would of necessity be brushed away at once and we should be left just where we are now It is time to put aside all the puerilities of unfledged legislators and deal with this subject in a way that will lead to actual results How are the legislature possibly know at what rates water and gas can be furnished in our city and leave a fair profit? The idea is absurd. If it be proposed to leave it with the common council to fix the rates once a year the subject is open to endless objection and will become a public scandal What the city wants is a very simple thing Let the legislature pass an act authorizing it to incur a debt by vote of the taxpayers only to erect or purchase water works or to bring about through a commission an arrangement as to rates with the present company, with such reasonable enlargement or extension of their works In this there would be something practicable something different in fact from visionary legislation It is impossible for any body of men to fix arbitrarily a rate because it is a problem into the calculation of which all the conditions and circumstances must be taken Equally would it be impossible for the legislature to fix a price at which the present works might be bought since it would first be necessary to take the testimony of engineers and others as to the actual value We are no going to have this question settled unless we put it in such shape as the ordinary rules of business require and it is because we want to see some thing actually done with this water question that we again refer to the subject As to gas works, it is not worth while to talk of that undertaking now All the city can do at present is to handle the water question

---

The Tacoma *Herald* which works for the interest of its own town and hopes that a railroad over the mountains will enable Tacoma to outstrip Portland thinks it strange that any of the people of Portland should make a great outcry against the O S N Co Its reason is given thus 'This company is and for many years has been the most substantial support to Portland It has gathered its rich harvests from far and near and garnered them in the Oregon metropolis Its principal place of business is Portland its officers and stockholders have erected their princely mansions there, and the taxes on its immense wealth are carried to the treasuries of Multnomah county and the city of Portland' And the *Herald* considers this company the main stay of Portland as against the terminal point of the Northern Pacific railroad on Puget Sound

---

English papers inform us of efforts to draw the Texas cattle trade direct to England without the necessity for the long round about drive overland from northern Texas to New York The Barrow ship building company have fitted up a 4 000 ton steamer called the *Brazilian* to run between Galveston and Barrow, the vessel being arranged especially for carrying live cattle It is stated also that the *Great Eastern* has been purchased by a company for the purpose of putting her in the trade between England and Texas though it is not intimated that she is to carry cattle

---

Senator Mitchell is "endorsed at last. But he had to go to Idaho to find somebody who could appreciate his great achievements. The other day the Republican convention of that territory resolved that it "appreciated his efforts in opening the Columbia river and obtaining railroad communication through Idaho to the Union Pacific" It is a pity that his Oregon constituents have had no knowledge that he has done these great things Should they ever find it out they will certainly make a note of it

---

Gen Brisbin estimates that there are now 92,729 Indians on reservations in Dakota, Nebraska, Iowa, Wisconsin Minnesota, Michigan, Wyoming, Montana Idaho, Oregon and Washington They occupy 92 737 953 acres of land, which he would open to settlement by removing the Indians to a permanent Indian territory north of the Missouri and Columbia rivers.

In New York and Massachusetts the platform of both the Republican and Democratic parties are financially sound But how are the eastern and western Democrats ever to harmonize? Looking down the rapidly opening and nearing vista of two years, it is possible already to see a party dissevered discordant, belligerent, beyond hope of a pact or truce on financial questions

---

The leading article in the *Atlantic Monthly* for October, "Certain Dangerous Tendencies in American Life' excoriates the Protestant clergy and their Sunday social clubs most unmercifully It is bitter medicine but no one who considers it will say it is not needed The writer is evidently prompted by a good impulse and his paper is worthy of general consideration

---

Gen Longstreet who has just accepted the position of revenue agent in Georgia is in straightened circumstances. His affiliation with the Republican party has operated to his disadvantage in all business enterprises he has undertaken in the south

---

At last the report of the state treasurer is printed We have to thank Hon D P Thompson for a copy It is a ponderous volume this time consisting of nearly 200 pages and is a document that will do to look into

CITY.

YELLOW GRADE RAILROAD.—Work on the section of the NARROW gauge railroad which is being constructed between Umatilla and La Grande is being pushed forward vigorously. The line of grading this section, over a rough country, is RISE per mile, and as the sharpest curve has a radius of 410 feet, and the steepest grade is only 60 feet per mile, the road can be operated as cheaply as constructed. Mr. Frank E. Habersham, the engineer in charge of this work, has certainly done well, and highly in his selection of the ground, but equally in the work done at such reasonable figures. He is a brother of R. A. Habersham, one of the engineer corps of this department.

HOW TO GET A SITUATION.—An incident which shows the demand for woman's labor in Portland and the benefit to be derived from advertising in THE OREGONIAN. A German woman, desiring a situation to do general housework, published an item to that effect in our "Wanted" columns, with direction to "address H. F." at this office. About a dozen letters of application were sent in during the day, and the young lady calling, got them, and got a situation in a good family. Only about twenty-three letters have been sent.

PRIVATE BOARD.—A private dispatch received here yesterday at 11:30 A. M. from Messrs. Trenchard & Upshur, of Astoria, stated that the steamer *Ancon* started to sea in the afternoon. Before reaching the bar the steamer was compelled to return to Astoria in consequence of the roughness of the water. The same dispatch states that the steamers *Great Republic* and *California* were lying there weather bound. The bar is reported very rough and the wind was from the west.

AN INCIDENT FOR RIGHT OF WAY.—Col. John Wilson, United States engineer, has paid into the U.S. district court the sum of $7,500. This money has been paid in by Mr. Wilson, who represents the government, and will be applied in liquidation of the claim for right of way for the canal and locks to be constructed around the Cascades of the Columbia.

MEETING.—The monthly meeting of the Young Men's Association of St. Stephen's chapel will be held this afternoon at 3 o'clock in the school building adjoining the chapel. It is earnestly desired that a full number of members to be punctual.

A TERRIBLE FALL.

A remarkable escape from great bodily injury occurred Monday evening about 8 o'clock on East Portland. The following are the details of the accident: Two men, one of whom was the butcher shop at the corner of Grand avenue and L. streets, drove a one horse express wagon to the railroad track. It was quite dark at the time. When the horses of the express wagon the horse started forward. The driver checked the animal, which caused the horse to balk. The wagon was near the edge of the bridge, and when the horse backed, the railing was broken and the wagon went over. Of course, the horse was carried over the edge and all were precipitated to the ground, a distance of nearly 26 feet. The wagon did not pass quite to the ground, but stopped with only a very few scratches. In the fall the horse was carried over the vehicle and came back behind the wagon. The animal escaped with very slight injury. However, the wagon was pretty badly wrecked. How the horse escaped great injury or death is quite remarkable. From the bridge to the ground is at least 26 feet, and the danger was increased by the prevailing darkness.

CONTRACT AWARDED.

[illegible] yesterday, the following bids were opened at the Cascades canal work. The contract was awarded to Col. Wilson:

[illegible] Clark City	$187,420 00
[illegible] Edwards, N. Y.	195,375 00
[illegible] Chicago, Ill.	201,457 20

[illegible] Portland, Or.	345,215 00
[illegible] Co., Keokuk, Iowa.	389,445 00

The approval of the chief of engineers is expected to Messrs. Ball and Platt, and will be announced as soon as the contract is signed.

The work includes (approximately) the following: 226 cubic yards of earth, 5,600 cubic yards of rock, 45,000 cubic yards of solid rock, 1,000 cubic yards of first class arch masonry, 195 cubic yards of clean ashler masonry, 900 cubic yards of backing masonry, 1,800 cubic yards of ordinary masonry, 4,500 cubic yards of rubble masonry, 1,000 feet of iron pipes, 10,000 pounds of iron bolts, dowels, etc.

ASSESSMENT AND VALUATION.

AMUSEMENTS.

ELLA WILSON—READINGS.—Mr. C. C. Morse received a dispatch yesterday from Mrs. Scott-Siddons, the very accomplished elocutionist, stating that she would be a passenger on the steamer *City of Chester*, which was just to sail. She will probably arrive here on Friday, and the first reading will be given at New Market theater Saturday evening. As some disappointment may be felt at the delay in hearing from the fact that Mrs. Scott-Siddons is to come with a dramatic company, it will be well to state that a great treat is in store for those who enjoy the lady comes unsupported. Mrs. Siddons gave a series of readings in San Francisco which were received with great public favor and highly commended by the press of that city. Her readings embrace an ample scope—humorous, pathetic and classic. Mrs. Siddons will appear for three nights. Of course everybody will go and hear the lady in her really wonderful entertainments.

The excellent photo work that Davidson Brothers are turning out proves that while they have much the lowest prices, they do not intend the quality of their pictures to be excelled. They make cards for $1 50, and cabinets for $3 per dozen.

When you want an excellent photograph, and do not care to pay extortionate prices, go to Frank G Abell, who does work well and at a reasonable figure. His productions show that he is popular.

WHO MURDERED COGGAN?

ARRAIGNMENT OF INDIANS AT PENDLETON—CONFESSIONS AND RECRIMINATIONS.

A Pendleton paper says, that on Monday, 23d, three Indians were arraigned before Justice Bishop at that place, on the charge of having murdered Geo. Coggan. Indian witnesses appeared, and for straight forward testimony it could not be beaten. Crimination and recrimination was in order. They did not appear to care so much who it was that killed Coggan as to ascertain which Indian made the first confession. Mr. Cornoyer was present, and he seemed to lose all confidence in good Indians, and concluded, like all the balance who were present, that nearly all the Umatillas and Columbias were engaged in the late lawless antness. We have always been like the main body of the citizens of Umatilla county, thinking that Maj Cornoyer would rather shield than convict any Indian that belonged really on his reservation; but the active part he took in ferreting out the real murderers of Coggan, has dispelled in the minds of all thinking people, any such idea. He, in connection with our sheriff, has worked up a case that all the fleecing of the most acute lawyer cannot overcome. He has done himself honor, and public opinion cannot award him too much praise. The Indians upon trial confessed to their participation in the great crime of murder, always coupling their statements with the question: Who was the first Indian to blow on us? This matter has been in the hands of Sheriff Sperry and Majors Throckmorton and Cornoyer for a long time, and many began to think that all the evidence and all the Indians would surely be gone at the sitting of the circuit court, and that the real perpetrators of this heinous crime would go unwhipped of justice. Our fear in that respect, we now see, was without foundation, and we freely accord to all the officers engaged in the matter, an honesty of purpose and a perseverance worthy to be emulated by all those in authority. The beginning of the end has just commenced and no doubt that nearly all the Columbias will not only be arrested, but convicted, and Sheriff Sperry will have cleared money enough in the hanging to elect himself U. S. senator provided he lived in any other state than Oregon. We learned by the evidence that had not Captain Miles made his appearance at the time he did, that not only Pendleton, but the surrounding country would have been at the mercy of the *friendly Indians*, Bannacks and Snakes.

The salmon run at Mukilteo is very short this season. But about 900 fish have been put up at Jackson & Myers' fishery. The short run is attributed to the low stage of water consequent upon the drought, and if a sudden rise should occur in the river, it is supposed the salmon will run into the bay more plentifully.

Letter from Rev. John McMurray.

I cannot but regard the discovery of Fellows' Hypophosphites as a matter of devout thankfulness to a benign Providence.

I have used it myself, and also recommend it to others, and invariably found it to be of essential benefit.

In bronchial and other chest affections, in arresting incipient consumption, and in lessening the distressing symptoms of this disease in its hopeless stages, as well as in cases of nervous debility, in giving tone to the system it is undoubtedly a valuable remedy. J. McMURRAY,

DR. PAUL M. BRENAN.

His Wonderful Success
IN THE TREATMENT OF ALL
Chronic and Difficult Diseases!

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS
public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN
has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself. Diseases of the Kidneys and Urinary Organs, including Spermatorrhœa, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once, and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES
to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE
over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN
will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally, and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps.

Everything strictly confidential and honorable.

THE DOCTOR
has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.
Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me, will please beware of persons who may try to coax them away to other so-called Doctors, through pretended friendship for the patients. Look out for them; they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. BRENAN, the *Medical Lecturer*, and read his sign on his door.

PERCHERON STOCK FOR SALE.

I WILL SELL THE FOLLOWING VALUABLE Breeding Animals:

FRIDE OF PERCHE or GEN. FLEURY, DOLL, WHITE ROSE, TEMPEST, these are all full bloods, JENNIE, a fifteen sixteenth blood. Doll has been bred to "Arabian Boy," the other three o Gen. Fleury. All appear to drop foal, and have proven No. 1 brood mares.

JOSIE, a yearling filly by Gen. Fleury, dam Jennie. This filly will be enrolled in the forthcoming Percheron-Norman Stud Book, having fine crosses from Percheron sires.

ELLA, a ¾ yearling filly, by Gen Fleury, dam Maggie.

The above seven horses are the most valuable breeding animals of this Stock ever offered for sale on this coast, and will be a valuable acquisition to any section they may be located in.

I would prefer to sell the lot together.

I will have part of the above number at the coming State Fair.

Also, "ARABIAN BOY," some Yearling Colts and Fillies, with the Shetland Ponies, and Sucking Shetland filly "Minnie."

It is 25 years since the Percheron stock was introduced in Ohio. The Secretary of the Ohio Board of Agriculture J. H. Klippart, Esq., publishes in his recent annual report, replies received from the various counties in the State, to the following questions: Have the Percheron horses been introduced in your county? Do they give general satisfaction? To the first, 65 counties answer Yes. To the second 59 answer Yes, and 9 answered No. And from the same report the average price of good geldings and mares for farm use were higher in Union county, where they were first introduced, than any other county in the State. This certainly speaks well for the Percherons. Every horseman knows that a large well formed horse will always bring a good price in any market.
